

Find the area of these shapes using the 9 times table.

The grid consists of a 10x10 grid of squares. On the far left, there is a vertical strip that is 1 square wide and 10 squares high, containing a green and yellow patterned ribbon. The main grid contains five rectangular boxes, each with a different illustration:

- Box 1 (top-left): A pterosaur, 6 squares wide and 4 squares high.
- Box 2 (top-right): A green dinosaur, 4 squares wide and 6 squares high.
- Box 3 (middle-left): A Stegosaurus, 4 squares wide and 6 squares high.
- Box 4 (middle-right): A green rooster, 4 squares wide and 4 squares high.
- Box 5 (bottom-right): A white rabbit, 4 squares wide and 6 squares high.

Box 6 (bottom-left): A clown, 4 squares wide and 4 squares high.
