

Number Snake: Add 10, Subtract 10.

The number snake starts at the top left with the number 7. It moves right through a row of boxes containing 7, +10, an empty box, +10, an empty box, +10, and an empty box. From the last empty box, it moves down through a column of boxes containing +10, an empty box, +10, and an empty box. From the bottom empty box, it moves left through a row of boxes containing +10, an empty box, +4, an empty box, +10, and an empty box. From the second empty box from the left, it moves down through a column of boxes containing -10, an empty box, and an empty box. From the bottom empty box, it moves left through a row of boxes containing -10, an empty box, +2, an empty box, -10, and an empty box. From the second empty box from the left, it moves down through a column of boxes containing -10, an empty box, and an empty box. The snake's head is at the bottom right, with two eyes and a tongue.

7	+10		+10		+10	
						+10
						+10
+10		+4		+10		
-10						
-10		+2		-10		
						-10
